SWISS MADE

JURA IMPRESSA F50 - Timeless Classic

IMPRESSA F50 – if this successful classic amongst JURA automatic speciality coffee machines was good before, it's now even better.

Thanks to four new programmable preparation buttons and improved user guidance with the Rotary Switch, it's never been easier to create the perfect coffee. Decide how you want your coffee and fall under the spell of the amber cup illumination during its preparation.

Programmable Buttons

Your favourite coffees are available at the touch of four new preparation buttons. Save your drinking preferences and enjoy your coffee again and again.

Intuitive operation

Programme navigation is incredibly simple thanks to the high-quality, sophisticated user guidance concept and with the help of the Rotary Switch.

Eco-intelligence

The patented Zero-Energy Switch disconnects the machine completely from the mains supply. This means that the IMPRESSA F50 does not consume any energy in standby mode.

Play with the senses

The soft amber light casts a golden glow over the coffee and cup, while the smell of fresh coffee caresses the nose and bewitches the senses.
