

Technical Details Jura IMPRESSA F50 platinum

Key technologies	Adjustable amount of water	■
Intelligent Pre Brew Aroma System (I.P.B.A.S.©)	Steam and hot water function	■
Two cups in a single brewing operation	Cup illumination	■
CLARIS plus filter cartridge (I.P.W.S.© compatible)	Counter for cups dispensed	■
Variable brewing unit	Milk container	accessory
Powerful 6-level conical grinder	Cup tray	■
High-performance pump	15 bar	
Thermoblock heating system	Programming	
Additional pre-ground coffee powder	Programmable switch-on time	■
Integrated rinsing/cleaning/descaling programme	Programmable switch-off time	■
Adjustable water hardness	Programmable water quantity for coffee	■
Automatic recognition of filter change	Programmable brewing temperature	2 strengths
Automatic recognition of maintenance	Programmable aroma	2 levels
Automatic recognition to fill beans		
Power Switch	Facts	
	Water tank capacity	1.9 L
Key features	Bean container with aroma preservation cover	200 g
Coffee grounds container (portions)	approx. 16	
Connector System©		■
Professional Cappuccino Frother		■
Easy Cappuccino Frother	accessory	
2-stage frothing nozzle	accessory	
Separate hot water frother		■
Rotary Switch		■
Clear text display		■
Height-adjustable coffee spout	70 – 111 mm	
Powder recognition for pre-ground coffee		■
Adjustable coffee strength	3 strengths	
	Cable length	app. 1.1 m
	Voltage	230 V AC
	Power	1,450 W
	Intensity of current	10 A
	Weight	9.1 kg
	Dimensions (W x H x D)	28 x 34.5 x 44.5 cm
	Tests	CB, PSB, SIRIM
	Article number / color	13369 / platinum
	EAN-Code	7610917133697
	Swiss Made	■

SWISS MADE

Jura IMPRESSA F50
platinum

Reads your choice of coffee from your fingertips

The intelligent prebrewing system extracts maximum flavour and aroma from any blend or roast. A single button is enough to select from three coffee strength and the clear-text display guides you when you use the Rotary Switch to regulate the amount of water or move through the programme menus. The clear, simple lines are the epitome of good taste and at the «Ambiente 2004» in Frankfurt, the IMPRESSA F50 took the Design Plus Award.

Design features

Forceful lines, softened by gentle contours, are the expression of a clear, timeless design, quality, lasting value and professionalism. No doubt about it: this machine is also a feast for the eyes.

Rotary Switch

In terms of programming, the Rotary Switch reduces everything – literally – to a twist of your wrist. Use it to select the desired amount of water or move smoothly through all the programme steps. Simply by turning and pressing the switch, you can adjust all the settings precisely to your own personal taste.

Connector System[©]

The Connector System[©] allows you to use the Easy-Auto-Cappuccino Frother, a dispenser for an even, regular hot water jet, and the optional 2-stage frothing nozzle or the Professional Cappuccino Frother to make perfect milk foam or hot milk.

The height-adjustable coffee dispenser

Whether you are using a small espresso cup or a mug for your breakfast coffee, the coffee dispenser can be adjusted to any height between 70 and 111 mm and fits any size of cup. This prevents splashes on the machine and guarantees a wonderfully thick crema.
